PART 2 - COPY TO BE RETURNED WITH RESPONSE

Figure 1000 is a block diagram of a system 1000 for processing a request for a patent examination. The system 1000 includes a processor 1010, a memory 1020, and a network interface 1030. The processor 1010 is configured to execute instructions stored in the memory 1020 to receive a request for a patent examination from a user 1040 via the network interface 1030. The processor 1010 is also configured to determine a priority date for the request and to generate a response to the request based on the priority date. The response is then transmitted to the user 1040 via the network interface 1030.
